

Export Trading Business

An export trading business is a self-contained corporation that provides support services to enterprises that export. This may involve warehousing, shipping, insurance, and billing on the client's behalf. Furthermore, export trading organizations may assist producers in locating international buyers and providing them with additional market information. An ETC can also be formed by a group of producers.

Note : When you import csv files to RDMS if float numbers ,for example, 32.55 converts to 3255 please select decimal type for the float numbers.

Task 1.

Company wants to analyze data: customer name and order id on which Orders, the interval between order and shipped date more than 20 days.
